The ACM® designation awarded by MHEI® distinguishes community managers who have experience managing manufactured home communities, have successfully completed the ACM® program of education and have committed to upholding the ACM® code of ethics. The ACM® designation provides the opportunity for community managers to identify themselves as committed professionals, sharpen their community management skills, and advance their careers in community management. Additionally, the classroom-based ACM® courses provide networking opportunities with other industry professionals. This is a two-part program. Both courses will need to be completed to achieve the ACM designation. The second session will be held September 18-20, 2019. Registrations for that that class will be available following the ACM Course 1 for a separate fee. A PowerPoint course overview is available at www.mmhmembers.org
