

HOME TO BE DONATED TO A DESERVING FAMILY!

NC Manufactured and Modular Homebuilders Association stands with our Western North Carolina communities as they rebuild from the devastation of Hurricane Helene. In addition to the thousands of donations our members have already given, we are planning to partner with organizations and relief efforts to donate a home to a family in need.

Our 800+ members across North Carolina stand in solidarity with these hard hit communities and look forward to rebuilding our great state one house at a time!
